

BF2.3

2.3 hp 4-stroke Outboard Engine

Low noise design

Intake silencer for quiet operation.

4-Front corrosion protection

4-stage coating process including anodising, paint and clear resin overcoat to protect against harsh ultraviolet rays and prolonged saltwater exposure.

Honda 4-stroke engine

2.3hp air-cooled, 4-stroke OHC engine is as light as a 2-stroke, yet is smoother, quieter, with better fuel economy and lower emissions.

360° rotation

Full engine rotation for great manoeuvrability in tight spaces.

Optional shaft lengths

Available in either long or short shaft, dependent on model.

Neutral gear point

Easily stop or slow the boat without having to kill the engine.

Storage feet

Lean the unit on its side, without damaging the finish.

Twist & Go Tiller controls

Automatic centrifugal clutch for 'twist & go power' and smooth operation. Both the throttle grip and gear clutch are controlled from a tiller handle.

Safe operation

Wrist-fitting emergency engine kill-switch for peace of mind.

Light and compact

The lightest in class, with an integral carry handle on the back of the engine for easy transportation and set-up.

Spares included

Spare propeller split-pins and shear pin kit included.

The Honda BF2.3 is extremely light, making it easily transportable and ideal for small boats, and dinghies.

Quite simply, it's the engine that anyone can use. Using the simple throttle grip, you can precisely adjust speed, giving you an accurate piloting touch with one-handed control. With a choice of long or short shafts the BF2.3 is a versatile outboard engine.
